

# BALCONY SYSTEMS SOLUTIONS LTD

**CLEARLY A BREATH OF FRESH AIR FROM BALCONY**

Glass Juliette balconies from Balcony Systems are a breath of fresh, clear air for all types of newbuild homes. This stylish, yet affordable solution from one of the UK's leading balustrading suppliers, gives a clean, contemporary appearance for instant 'kerb appeal'. Innovative design using the handrail to support the glass means there are no vertical posts or ugly clamps to obscure the view. With 28 different models available and handrail finishes in white, silver, bronze or Royal Chrome, glass Juliette balconies look beautiful for a surprisingly reasonable price. For bulk orders, Balcony Systems can supply standard or bespoke sizes and finishes in a range of RAL colours to suit any client specification and budget. Pierre Borlesi, Managing Director of contractors Novaplus Ltd, ordered 24 Juliettes from Balcony Systems for The Gateway, a two and three-bed apartment complex in Heywood, near Rochdale.
