

Balcony Systems

Stand: A65 Hall 5

At Interbuild 2007, specialists in sophisticated balustrading and glazing solutions Balcony Systems Ltd and VBS Ltd have joined forces to create a spectacular joint stand offering a complete 'one-stop shop' for architects, specifiers, developers and even individual enquirers to suit any requirements for glazed balconies and balustrades.

Balcony Systems Ltd will be presenting their complete range of innovative glazed balustrading solutions and Juliettes, with a choice of attractive handrail finishes, such as the newest beautiful finish 'Royal Chrome', that offer the designer an elegant, yet cost-effective, alternative to traditional railings or spindles. Balcony is also exhibiting curved sliding patio doors and enclosures, which offer outstandingly different design opportunities.

Distinctive curved sliding patio doors open up new realms of creative design possibilities, which the companies predict will create considerable interest. Available in a choice of sizes and attractive finishes, the doors offer striking panoramic views at affordable prices.

VBS Ltd offers specifiers, developers and house-builders a full service from concept and planning through to design and complete trouble-free installation. VBS Ltd

has secured over £4 million worth of balustrading projects on houses and apartments throughout the UK. At the show, it will also be highlighting a pre-fabricated 'bolt-on' balcony system, which is ideal for quick and easy installation on all types of projects.

For all types of internal or external balustrading, glass is the ideal, no-maintenance solution with its clean lines creating a contemporary and neat appearance for all types of properties. Being corrosion-resistant, it is particularly suitable for coastal environments. For Juliette balconies especially, its transparency allows in more natural light to assist in brightening interiors.

Affordable Window Systems

Stand: G75 Hall 4

Affordable Window Systems, Lancashire's largest fabricator of windows and conservatories, is showcasing its range of Affordable Folding Sliding Doors manufactured from the Smart Systems product range. "Quality products backed by over 20 years experience and 15 day turnaround on folding sliding doors give us the edge over our competitors," say Phil Myers Sales Director. Smart Aluminium Windows, doors and curtain walling manufactured by Affordable are also available made to the same High standards. "We are looking forward to a strong exhibition reaching the decision makers in both the public and private sectors," concludes Phil.

The company views Interbuild as yet another opportunity to show off its wide range of quality products, including a new range of Affordable Composite Doors. As a manufacturer of both 'Lead Free' Kommerling PVC-U and Smart aluminium systems, this year's Interbuild is of particular relevance to Affordable Window Systems as there is renewed focus upon the growing trend towards aluminium and environmentally friendly PVC-U windows in fenestration.

Hall 4 will be the home for window, door and conservatory exhibitors. Over the next few pages we will preview some of the expected highlights of Hall 4. For full exhibitor list please visit the Interbuild website.

INTERBUILD 2007

The UK's building show will be staged from Sunday 28 October to Thursday 1 November 2007. The show has moved to the NEC's three largest exhibition halls 3 / 3a, 4 and 5. This new location will allow Interbuild to better group products together and provide visitors with an even easier way to navigate around the show.

If you want to see all the latest innovations in building, Interbuild is the place to be.

Here, you'll find over 1,100 exhibitors showing thousands of products that cover every aspect of construction – many of them with brand new products being launched right here at the show. If you are involved in the construction industry then Interbuild will be the must attend event of the year and the only place that you need to go to find the latest products and information.

Apart from all the exhibitors and new products, there are seminars, workshops and demonstrations running throughout the event so there's always a great opportunity to pick up advice, new ideas and inspiration.

The window, door and conservatory

industry will be out in force again. Some of the leading industry suppliers will be exhibiting an interesting array of products and services.

The organisers of Interbuild have also announced that the show will now happen every year. The 2008 dates are already confirmed and an official announcement will be made at this year's show.

OPENING TIMES.....

Sunday 28th October to Thursday 1st November

Sunday	9.30am - 5.00pm
Monday	9.30am - 5.00pm
Tuesday	9.30am - 5.00pm
Wednesday	9.30am - 5.00pm
Thursday	9.30am - 4.00pm
